SUMMARY

Frontend Developer with 2+ years of experience building web applications with React, TypeScript and modern frontend technologies. My background as a lawyer helps me understand business needs and user expectations, which I now apply in software development. I focus on building clean, maintainable, and user-friendly applications while continuously expanding my technical expertise.

SKILLS

- **Core:** JavaScript; TypeScript; React; Next.js; HTML5; CSS3/SCSS; Tailwind CSS;
- **Additional Technologies:** Vue.js; jQuery**;** Node.js; Express.js; MongoDB; Django; PHP; Laravel; Nginx; JWT; shadcn/ui; Zustand
- **Tools & Workflow**: Git; Figma; Jira; Trello; Confluence; Vite; Webpack; Docker; Postman

EXPERIENCE

Frontend Developer Jan 2026 – present
Self-Employed
Codelibs is a web platform for discovering programming books, with filtering by programming language and technology.

- Fixed UI and application logic issues across existing modules.
- Refactored legacy JavaScript code to improve maintainability and readability.
- Collaborated with other developers through code reviews and technical discussions.
- Contributed to the ongoing development and improvement of the platform.

Core technologies: JavaScript, TypeScript, React, Next.js; Tailwind CSS; Vue.js; GitLab

Frontend Developer Jan 2025 – Jan 2026
Kostanay Engineering and Economics University, Kazakhstan
One of the biggest universities in Kostanay

- Developed and redesigned corporate website pages, fixed bugs and implemented responsive design for tablets and mobiles, which **improved usability for students and teachers**.
- Enhanced and optimized student and teacher dashboard interfaces, ensuring a more intuitive and user-friendly experience.
- Developed a job fair web application that enabled student registration and employer visit tracking, **used by over 100 participants**.

Technologies: PHP; Laravel; JavaScript; jQuery; Vite; HeidiSQL; HTML; CSS; Postman

Frontend Developer Sep 2025 – Nov 2025
ANO "I Hear You"
The project focused on supporting people with hearing impairments, allowing them to receive important information and assistance through the Telegram bot.

- **Built core admin dashboard pages: analytics, user list, bot logic configuration.**
- Implemented UI-kit (buttons, inputs, dropdowns, modals).
- **Integrated dashboard with backend endpoints**: data fetching, state handling, error and loading states.
- **Collaborated with backend developers handling bot logic and ensured smooth API contracts.**

Technologies: React, TypeScript, Tailwind CSS, Vite, Figma

Frontend Developer Mar 2024 – Jun 2025
Tessera Mosaic School
Website for Mosaic Courses that utilizes React and Django. It allows users to view available courses, book them, and access various other features.

- **Implemented** blog pages, authentication **and key sections** of the application.
- **Integrated** REST API endpoints for courses and authentication.
- Migrated parts of codebase **to TypeScript.**
- **Refactored and optimized** existing pages, **reduced loading time by 40%** and fixed high-priority bugs.
- Collaborated in code reviews and promoted best practices, which **boosted test coverage from 0% to 80%.**

Technologies: JavaScript; TypeScript; React; SCSS; Tailwind CSS; HTML; Django; Docker; Figma

EDUCATION

2018-2021 — Master degree in Civil and Commercial Law — Higher School of Economics
2014-2018 **—** Bachelor degree in Law — Saint Petersburg Polytechnic University

LANGUAGES: English — Upper-Intermediate (B2); Russian — native
